

## Heritage Lane Extra - 4 April 2011

W.E. Saunders' paper, "Destruction of Birds at Long Point Lighthouse, Ontario, on Four Nights in 1929" was originally published in *The Auk* in October 1930. It can be found online at <http://elibrary.unm.edu/sora/Auk/v047n04/p0507-p0511.pdf>

Pictures and an article with many details about W.E. Saunders is also available in the February 2006 online version of *The Cardinal*, the newsletter of The McIlwraith Field Naturalists of London. <http://www.mcilwraith.ca/PDF/202FeatureArticle.pdf>

Recently, I was going through a family history file and ran across a collection of my mother's report cards. Just out of curiosity I looked at a couple, and in one I found something I'd never seen before – her 1938 junior membership pledge for the Quebec Society for the Protection of Birds. If anyone belonged to a similar organization in Haldimand and Norfolk, I'd love to hear about it. You can reach me at [heronwood@execulink.com](mailto:heronwood@execulink.com)
